SATURDAY, JULY 7, 1821.

Colonial-Office, Downing-Street, July 4, 1821.

CAPTAIN CROKAT, of the 20th regiment, arrived this day from St. Helena, with a dispatch, addressed to the Earl Bathurst by Lieutenant-General Sir Hudson Lowe, K. C. B. of which the following is a copy:

MY LORD, *St. Helena, May 6, 1821.*

IT falls to my duty to inform your Lordship, that Napoleon Bonaparte expired at about ten minutes before six o'clock in the evening of the 5th instant, after an illness which had confined him to his apartments since the 17th of March last.

He was attended during the early part of his indisposition, from the 17th to the 31st of March, by his own Medical Assistant, Professor Antommarchi, alone. During the latter period, from the 1st of April to the 5th of May, he received the daily visits of Dr. Arnott, of His Majesty's 20th regiment, generally in conjunction with Professor Antommarchi.

Dr. Shortt, Physician to the Forces, and Dr. Mitchell, Principal Medical Officer of the Royal Navy on the station, whose services, as well as those of any other medical persons on the island, had been offered; were called upon in consultation by Professor Antommarchi, on the 3d of May; but they had not any opportunity afforded to them of seeing the patient.

Dr. Arnott was with him at the moment of his decease, and saw him expire. Captain Crokot, Orderly Officer in attendance, and Doctors Shortt and Mitchell, saw the body immediately afterwards.

Dr. Arnott remained with the body during the night.

Early this morning, at about seven o'clock, I proceeded to the apartment where the body lay, accompanied by Rear-Admiral Lambert, Naval Commander in Chief on this station; the Marquis de Montchenu, Commissioner of His Majesty the King of France, charged with the same duty also on the part of His Majesty the Emperor of Austria; Brigadier-General Coffin, Second in Command of the Troops; Thomas H. Brooke and Thomas

Greentree, Esqrs. Members of Council in the Government of this island; and Captains Brown, Hendry, and Marryat, of the Royal Navy.

After viewing the person of Napoleon Bonaparte, which lay with the face uncovered, we retired.

An opportunity was afterwards afforded, with the concurrence of the persons who had composed the family of Napoleon Bonaparte, to as many Officers as were desirous, Naval and Military, to the Honourable the East India Company's Officers and Civil Servants, and to various other individuals resident here, to enter the room in which the body lay, and to view it.

At two o'clock this day the body was opened, in the presence of the following Medical Gentlemen, Dr. Shortt, M. D. Dr. Mitchell, M. D. Dr. Arnott, M. D. Dr. Burton, M. D. of His Majesty's 66th regiment, and Matthew Livingstone, Esq. Surgeon in the East India Company's Service.

Professor Antommarchi assisted at the dissection. General Bertrand and Count Montholon were present.

After a careful examination of the several internal parts of the body, the whole of the Medical Gentlemen present concurred in a report on their appearance. This report is inclosed.

I shall cause the body to be interred with the honours due to a General Officer of the highest rank.

I have entrusted this dispatch to Captain Crokot, of His Majesty's 20th regiment, who was the Orderly Officer in attendance upon the person of Napoleon Bonaparte at the time of his decease. He embarks on board His Majesty's sloop Heron, which Rear-Admiral Lambert has detached from the squadron under his command, with the intelligence.

I have, &c. &c. &c.

H. LOWE, Lieut.-Gen.

To the Right Hon. the Earl Bathurst, K. G.

&c. &c. &c.

Longwood, St. Helena, May 6, 1821;

Report of Appearances on Dissection of the Body of Napoleon Bonaparte.

ON a superficial view the body appeared very fat,

which state was confirmed by the first incision down its centre, where the fat was upwards of one inch and a half over the abdomen. On cutting through the cartilages of the ribs, and exposing the cavity of the thorax, a trifling adhesion of the left pleura was found to the pleura costalis. About three ounces of reddish fluid were contained in the left cavity, and nearly eight ounces in the right. The lungs were quite sound. The pericardium was natural, and contained about an ounce of fluid.

The heart was of the natural size, but thickly covered with fat. The auricles and ventricles exhibited nothing extraordinary, except that the muscular parts appeared rather paler than natural.

Upon opening the abdomen the omentum was found remarkably fat, and on exposing the stomach, that viscus was found the seat of extensive disease. Strong adhesions connected the whole superior surface, particularly about the pyloric extremity to the concave surface of the left lobe of the liver; and on separating these, an ulcer, which penetrated the coats of the stomach, was discovered one inch from the pylorus, sufficient to allow the passage of the little finger. The internal surface of the stomach, to nearly its whole extent, was a mass of cancerous disease or schirrous portions advancing to cancer: this was particularly noticed near the pylorus. The cardiac extremity, for a small space near the termination of the œsophagus, was the only part appearing in a healthy state. The stomach was found nearly filled with a large quantity of fluid, resembling coffee grounds.

The convex surface of the left lobe of the liver adhered to the diaphragm. With the exception of the adhesions occasioned by the disease in the stomach, no one healthy appearance presented itself in the liver.

The remainder of the abdominal viscera were in a healthy state.

A slight peculiarity in the formation of the left kidney was observed.

Admiralty-Office, June 22, 1821.

IN order to prevent inconvenience to individual Officers, as well as to His Majesty's Service, the Lords Commissioners of the Admiralty think it necessary to remind the Officers of His Majesty's Navy and Royal Marine Forces, that they cannot receive their half-pay for any period during which they may be absent from this kingdom without their Lordships' leave, and that Officers who may wish to remain abroad, beyond their original leave, should take care to apply for a renewal thereof in due time, so that such application may be received at this Office prior to the expiration of the former leave, as (unless very special circumstances can be stated in any particular case), no half-pay can be paid for any period of absence abroad which shall not be covered by their Lordships' leave.

All applications, either for original leave; or for a renewal thereof, whether made through agents or otherwise, must be written by the Officer himself
